

Painted Cliffs Tour

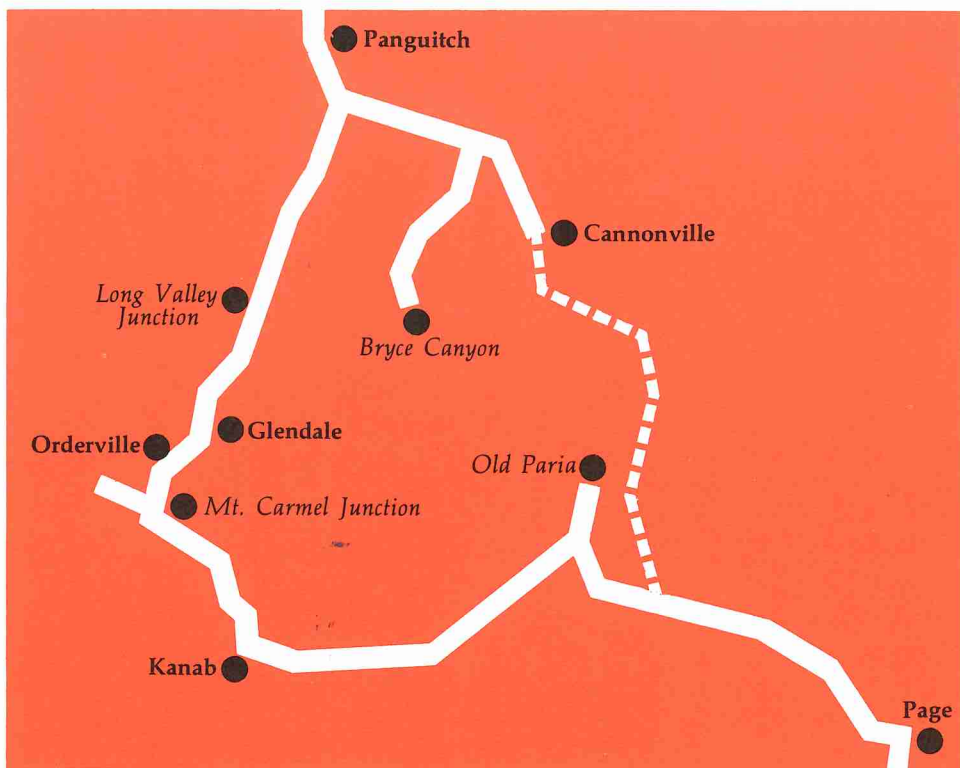

Length of tour from Panguitch: 300 miles roundtrip; add up to 100 miles for side trips

Time to allow: two to four days

Season: all year for paved highways; May to October for Cannonville Cottonwood Canyon road (inquire in

advance about condition of this road due' to flash floods)

Accommodations: Panguitch, Bryce Canyon, Red Canyon, Glen Canyon City, Page, Kanab, Mt. Carmel, Orderville, Glendale

CANNONVILLE: see Panorama Land Tour, page 30.

OLD PARIA: settled in 1871, became a prosperous cattle and farming community of 47 families. Floods in 1883 and 1885 washed away the farm land, ending the prosperity; people began to move away and the town was finally abandoned in 1912.

KANAB:

June McAllister Home, 14 East 1st South. Built of red brick in 1892, the

house possesses many excellent examples of Victorian architecture of that period. The gingerbread trim and original integrity of the building are unusual.(S)

Frederick A. Lundquist Home, main highway. Built by Mr. Lundquist in 1890, restored in 1962, the lovely white brick home combines the grace of 19th Century French Provincial architecture with the flair and style of contemporary living. (S)

James Amasay Little Home, 247 North 1st West. Built in 1873 for Mr.

June McAllister Home

Little's first wife, this adobe house typifies the migrant polygamous pioneer's struggle to house his families. (C)

ORDERVILLE: settled in 1864, in 1875 was an example of one of the major economic experiments of the Mormon Church, the United Order. The people

Frederick A. Lundquist Home

pooled all their wealth, turned the fruits of their labor into a common storehouse and shared equally in the proceeds. The difficulties of living under one social and economic system, surrounded by an entirely different one, slowly stifled Orderville; the experiment was discontinued after eleven years.
